WELCOME

Welcome to the 2026 Isle of Man TT Races.

In a change from previous years, the event regulations have been reorganised into three separate documents: Supplementary Regulations, Technical Regulations, and this Event Information document.

This change has been made to make the documentation more concise and easier to navigate, and to give teams and competitors a clearer understanding of the respective roles and responsibilities of ACU Events Ltd as the TT Race Organiser, and Isle of Man Government Department for Enterprise as the Promoter. In doing so, it aims to improve understanding of how the event is delivered and ensure enquiries can be directed to the appropriate organisation.

The Supplementary Regulations and Technical Regulations have been produced by the Race Organiser, and this Event Information document has been produced by the Promoter. It contains important information relating to Promoter activity and areas managed by the Motorsport Team including arrivals, paddock and living arrangements, passes, media and publicity, and prize presentations.

Please note that this is a *live* document and is subject to change. Any updates will be highlighted in the Version Control table on page 1.

We ask all teams and competitors to study this document and carefully monitor it for any updates. This is particularly important as some significant changes are being made to the operational delivery of TT 2026, specifically in relation to the pass system and the introduction of a new accreditation process. Full details will be provided within this document in due course.

Should you have any queries, please do not hesitate to contact the appropriate member of my team.

We look forward to welcoming you to TT 2026 in a few months' time.

Kind Regards

Paul Phillips

Head of Motorsport

Isle of Man Government Department for Enterprise Motorsport Team
